Conference Program and Exhibit Hall Guide

Accessibility that everyone deserves, for the digital world everyone needs

IBM is creating accessible solutions that adapt to each person's individual human needs and abilities to make routines, processes, interactions, and decisions easier and more intuitive.

Our human-centric solutions are designed so everyone—people with disabilities; the aging population; novice technology users; people with language, learning, and literacy challenges; or any individual facing a situational impairment while using a device—has easy and equal access to your business and services.

IBM helps commercial and government organizations manage accessibility compliance issues, improve digital learning and training, simplify the user experience on any device, and create an inclusive workplace environment.

To learn more about today's smarter, more accessible planet, visit ibm.com/able

Welcome

Dear ATIA Attendees, Exhibitors and Speakers,

Welcome to our 15th anniversary conference! Anniversaries allow us to reflect on where we have been, what we have accomplished and where we are going. Our first conference, held in 1999, drew 536 attendees, many of them educators. Today, we have doubled that number and have expanded our educational offerings. We are proud that our event is one of the premier professional development opportunities for our attendees. Our speakers are the best in the field. We all should be thankful that so many of our colleagues take the time to come to Orlando to present excellent content focused on AT and how it supports persons with disabilities.

Over the years it has also been evident that new attendees have such great opportunities to network with and meet others who have been leaders in the field for so many years. This networking, along with professional development, is at the heart of what ATIA Orlando has grown into these past 15 years. The mix of professionals, individuals with disabilities, parents, developers, manufacturers, researchers and many more is what has kept us growing.

This year, we have continued our tradition of bringing you networking, learning and sharing opportunities. Here are just a few:

- Learn from more than 300 **Educational Sessions** that allow you to learn best practices, the latest research, tips for implementation and more from experts in the assistive technology field.
- Share your own examples of success in **Smackdowns**. Have a difficult case study? Bring it with you and tap into the knowledge of the group to come up with answers.
- View the latest advances in assistive technology in the **Exhibit Hall** and visit with leaders in the field. Visit the **Product Demo Center** for demonstrations of the latest AT tools.

Again, we thank you all for your support of this conference and for helping us advance the field these past 15 years. We hope you enjoy the conference!

General Information

Locations-At-A-Glance

Sierra Foyer: ATIA Registration;

Accessible Materials & Services Kiosk

Caribbean III: My Planner Area; Concessions for Lunch Vouchers Only

Caribbean Foyer: Poster Sessions

ADA Legacy Bus Tour

The ADA (Americans with Disabilities Act) Legacy Tour is rolling across the country raising awareness and building excitement toward ADA25 - the 25th anniversary of the ADA in 2015! And this year, they are making a stop in Orlando at ATIA 2015. For more information, visit www.adalegacy.com/ada25.

Lunch Vouchers Information

Lunch vouchers can be picked up at the Registration Desk. Lunch is \$16 a day. Express lines for vouchers are available at the tented Pavilion located outside, behind the convention center and in Caribbean III.

Internet Access

Complimentary wireless Internet access is available throughout the convention center!

SSID: ATIA 2015

Encryption code: ATTENDEE2015

All exhibitors provided separate log-in details to use.

All attendees staying at the Caribe Royale, booked in the ATIA block, receive complimentary Internet access in rooms.

Mobile App

ATIA is going mobile...again! Download the ATIA 2015 mobile app for iPhones or iPads at www.atia.org/mobile. Use the mobile app to create a personalized conference schedule and stay current on session changes, events and special announcements. You can also use the mobile app to view sessions, speaker bios, handouts and link to session evaluations. Don't have an iPhone or iPad? A web version is also available.

Welcome Reception, Sponsored by Microsoft

ATIA is launching the conference with a Welcome Reception on Wednesday, January 28 from 4:00 PM - 5:15 PM located inside the Pavilion. Sponsored by Microsoft, the Reception will include a chance to network with fellow attendees, exhibitors, speakers and ATIA staff. Following the Welcome Reception, come inside to the Exhibit Hall Opening to get dessert and some great prize giveaways!

Outta Sight is Performing at the Welcome Reception

Outta Sight is a student-driven pop/folk/rock genre band designed for high school students at the Florida School for the Deaf and the Blind. You can enjoy their performance during the Welcome Reception.

Exhibit Hall Grand Opening

Immediately following the Welcome Reception, join us for dessert with your fellow attendees at the Exhibit Hall Grand Opening, from 5:30 PM - 7:30 PM. Enjoy this opportunity to check out the latest technologies the industry has to offer and take advantage of opening night product specials. Microsoft will be raffling off special prizes during the Exhibit Hall Grand Opening! Must be present to win.

Need More Power for Your Mobile Devices? Grab an ATIA Power Bar!

Avoid the lines at charging stations and losing power at a crucial moment during the conference by purchasing an ATIA Power Bar! You'll get 72 hours of charging time for your iPhone, iPad, Android phone or other USB device. Better yet - think of how useful this will be in a classroom where you have limited outlets, or on the road when you don't have time to power your tablet or phone. It also makes a great gift for your friends or colleagues. ATIA Power Bars may be purchased in the Registration area.

Voiceye Codes

Are you wondering about the codes in the top right-hand corner of each page? ViewPlus has created barcodes for each page of the Conference Program to access the information contained in each code; download the free

General Information

Voiceye™ app from the App Store or Google Play. Scan the code using your Android, iPhone or iPad and choose your method of access: voice, large print/high contrast, Braille or translated language. *Please note: This PDF version of the Conference Program and Exhibit Hall Guide does not include Voiceeye codes because the codes cannot be scanned from a PDF file.*

Town Hall Meetings

The MTSS Technology and Learning Team is co-hosting a five part series of Town Hall-style meetings at ATIA 2015. Join these highly interactive discussions between panelists and participants. (Open to full registered attendees.)

Universal Design for Learning Town Hall Meeting

Thursday, January 29, 1:00 PM - 2:00 PM, Caribbean VII

Join this learning community in a highly interactive discussion between panelists and participants. Various state and group representatives will open a discussion

about innovations, current trends and issues of importance in the field of Universal Design for Learning.

Moderator: Jamie Basham, KU School of Education

Panelists: Denise DeCoste, Accessible Technology Consulting; Jeff Diedrich, MITS/MI²/MDE; Matt Marino, UCF; Joy Zabala, CAST

Augmentative and Alternative Communication Town Hall Meeting

Thursday, January 29, 2:20-3:20 PM, Caribbean VI

Join this learning community in a highly interactive discussion between panelists and participants. Various state and group representatives will open a discussion about innovations, current trends and issues of importance in the field of Augmentative and Alternative Communication.

Moderator: Susan McCloskey, Volusia County School Board

Panelists: Lauren Enders, Bucks County Intermediate Unit #22; Terry Foss, IEMC Communication Inc.; Janice

Assistive Technology Town Hall Meeting

Friday, January 30, 9:20 AM - 10:20 AM, Caribbean VII

Join this learning community in a highly interactive discussion between panelists and participants. Various state and group representatives will open a discussion about innovations, current trends and issues of importance in the field of Assistive Technology.

Moderator: Kirk Behnke, Region 4 ESC

Panelists: Susan Gill, PATTAN; Mike Marotta, MAK Technology Solutions, Inc.; Teresa Pinder, School Board of Levy County

Accessible Instructional Materials Town Hall Meeting

Friday, January 30, 1:00 PM -2:00 PM, Caribbean VI

Join this learning community in a highly interactive discussion between panelists and participants. Various state and group representatives will open a discussion about innovations, current trends and issues of importance regarding AIM.

Moderator: Joy Zabala, CAST

Panelists: Brenda Dawes, Oklahoma ABLE Tech; Beth Mineo Mollica, University of Delaware; Nicole Morris, Center for Instructional Supports and Accessible Materials, Ohio State

School Wide Reform/Inclusion Town Hall Meeting

Friday, January 30, 4:30 PM - 5:30 PM, Caribbean VII

Join this learning community in a highly interactive discussion between panelists and participants. Various state and group representatives will open a discussion about innovations, current trends and issues of importance in the field of School Wide Reform/Inclusion.

Moderator: Jeff Diedrich, MITS/MI²/MDE

Panelists: David Davis, University of South Florida; Laura Taylor, MITS; Jon Mundorf, Collier County Public Schools; Cynthia Okolo, Michigan State University

Educational Sessions Information

Educational sessions are one-hour presentations and are available to registered conference attendees on a first-

come, first-served basis. Check the mobile app for up-to-date session changes.

Educational Session Types

Educational Sessions are one-hour presentations by regional, state, and national AT leaders and individual technology users. Sessions are listed in the printed Education Session Grid; vendor sessions are identified by a ★.

 **Bring Your Own Technology Sessions** are one-hour sessions designed for hands-on attendee learning with their personal devices. Sessions are set up classroom style with tables. Power strips are available at the back of the room for charging devices.

 **Poster Sessions** are informal presentations designed to explain and visually showcase single project, program or activity and stimulate discussion between presenters and attendees. Poster Sessions are located in the Caribbean Foyer on Thursday and Friday from 3:00 PM to 5:00 PM.

Smackdowns are fast-paced learning at its best. Participants will be able to impart their own examples of success with the group. Have a tough case? Bring it with you and use the collective knowledge of the group to come up with actionable answers. Smackdowns are held during lunch on Thursday and Friday.

Product Demonstration Center Sessions (PDCs) are 20-minute presentations by AT vendors designed to showcase products or services and new release highlights. PDC sessions are located in the Exhibit Hall.

Accessible Materials

The Accessible Materials & Services desk is located in the Registration area. Pick-up pre-ordered Braille and large print versions of the conference materials, Accessible Materials Resources USB drive, and tactile maps of the Exhibit Hall and Convention Center, provided by ATIA Member **gh, LLC**. There will also be a few copies of Braille session evaluation forms available if needed. Regrettably, we are unable to provide additional printed copies on demand. Session Signs, copies of the Braille menus for hotel dining options, in-room dining and the hotel directory are also available for reference.

General Information

Accessible Services

Requests for sighted guides can be made onsite at the Accessible Materials & Services desk located in the registration area. These are available on a first-come, first-served basis and are subject to availability. Onsite sighted guides are provided at no fee and are usually for a one-hour period. If you require full-day sighted guide assistance, we regret we are not able to provide these at the conference.

Unless arrangements are made in advance, there will not be sign interpreter services provided at the conference. We can recommend local agencies to provide these services for a fee.

CCTV units and signature units, provided by **Freedom Scientific**, are available at the hotel front desk and at ATIA registration to assist guests with magnification of registration documents and check-in.

Zoomtext Magnification software, provided by **Freedom Scientific**, will be available in the My Planner area, located in Caribbean III.

Conference Wayfinding Directions

ClickAndGo Wayfinding has again partnered with ATIA to provide attendees with fully accessible online narrative route maps of the conference venue. Landmark-to-landmark route information covers important indoor and outdoor routes along with detailed narrative descriptions of important points of interest at the conference.

ClickAndGo Wayfinding, LLC, is a narrative mapping service offering blind and deaf-blind travelers customized walking directions. You can access **ClickAndGo Wayfinding** at <http://www.clickandgomaps.com/caribe>; audio directions can also be obtained by calling 877-601-7253.

My Planner Area

The My Planner Area will be located in Caribbean III and will be open for access during all registration hours. This area will feature computers with full Internet access. Screen reader software is being provided for use on these computers by **Freedom Scientific**. Use the computers to check the online Session Directory and

General Information

plan which sessions you'd like to attend, print handouts and complete session evaluations. If you purchased lunch vouchers in advance, you will also be able to get your lunch in the My Planner Area.

Conference Printer

Canon USA, in extension of its KYOSEI philosophy, is proud to be a sponsor of the ATIA 2015 Orlando Conference. **Canon** has donated a multi-function digital imaging system that can be accessed by conference attendees for printing conference schedules, session information and session handouts (based on availability). The device will be available in the My Planner Area in Caribbean III.

edcampAccess International

ATIA is proud to support edcampAccess International. Carrying on the tradition started by edcampAccess/Boston and edcampAccessNJ, this will be an unconference devoted to k-12 special education issues and ideas, with a focus on teaching all struggling learners and the use of assistive technology. The event is not limited to special educators, all are welcome to attend and share their expertise!

edcampAccess International provides an opportunity to process the great insights gained from attending ATIA and collaborate with others to challenge your thinking.

Where: The Caribe Royale Hotel and Convention Center, Orlando, FL

When: Saturday, January 31, 2015

Time: 12:30 PM - 4:30 PM

Register at www.atia.org/Edcamp

Business Center

The Business Center, located next to the Hibiscus Room, is open Monday through Friday from 7:30 AM to 5:30 PM, and Saturday and Sunday from 8:00 AM to 2:00 PM. Business services are provided at your own expense.

Animal Relief Areas

There are two animal relief areas available for your use. One is located at the west end of the convention center and the other is located outside of Tower 2, across from the parking on the field-side.

Passport to Prizes

A Passport to Prizes game card is available with your attendee materials. It includes details about the Passport to Prizes program and companies participating in Passport to Prizes.

Parking

The Caribe Royale offers complimentary parking for all hotel guests and conference participants.

Food and Beverage

All Caribe Royale restaurants are giving attendees a 10% discount. If you purchased a conference lunch ticket, you will receive a voucher for the day(s) purchased when you check in at conference registration. These vouchers will be good for use at the concession stands located in the tented Pavilion (outside, behind the convention center) and in Caribbean III. Vouchers are valued at \$16 and change will not be provided. Those without lunch vouchers can purchase food and drinks in the tented Pavilion or at any of the local restaurants.

Discounts at Local Restaurants

As an ATIA attendee, you qualify for discounts at local "Show Your Badge" restaurants.

To view participating area restaurants go to: <http://atia2015.orlandomeetinginfo.com/>.

Complimentary Shuttles to Local Attractions

ATIA has made arrangements with the Caribe Royale to offer FREE shuttles to local entertainment. The first pickup from the Caribe is 6:00 PM. Shuttles run continuously, with last pickup from Downtown Disney or Pointe Orlando at 10:30 PM. Pick up shuttle schedule at the Registration Desk.

ATIA Education

Access Education Year Round with ATIA's Online Professional Development Webinars Program

ATIA's webinars are live and archived, allowing you to access resources for what's new in assistive technology, best practices and implementation strategies, 24/7, 365 days a year. View Archives on your schedule or attend a Live webinar to get your questions answered in real time. ATIA's webinars are presented by leaders in AT with extensive experience assessing and implementing AT in the classroom, work, home and life.

View a listing of ATIA's webinars today by visiting:
www.atia.org/webinars

Provide access to your entire staff team at a discount price! The **ATIA Subscription Program** provides organizations – school districts, rehabilitation centers, non-profit organizations, government agencies, etc. - with easy access to AT training. A **Subscription** to ATIA's online professional development is a great way to:

- Build district/state/organizational level capacity to meet AT needs.
- Implement new and emerging technologies into existing infrastructure.
- Access very timely and current topics for fulfilling required CEUs and professional development.
- Provide staff access to training that accommodates busy schedules.

For more details, visit:

www.atia.org/webinarsubscription

Things to do after ATIA 2015

- Complete the Conference Evaluation (see your email for survey link)
- Register for CEUs

Save the Date: ATIA 2016

ATIA Education

Session Handouts

Session handouts are available to full conference attendees on the ATIA website and the mobile app. You will find information on how to access the online handouts in the Education Session Grid (included in your package of conference materials). You can also print handouts from the **Canon** system in the My Planner area in Caribbean III.

Session Evaluations

As part of ATIA's commitment to Going Green and to reduce the amount of paper at the conference, we are offering easy-to-access online Session Evaluations with a convenient link in the mobile app. For those without access to the Internet or mobile app, a limited number of printed Session Evaluations will be available.

Conference Evaluation

A Conference Evaluation will be sent to you via email. Please take a moment after the conference to complete this evaluation. Your feedback is important to us and is used to improve the quality of the conference. Completing an evaluation enters you into a prize drawing for a free ATIA 2016 Registration!

Continuing Education Units (CEUs)* Information

ATIA conference registration fees allow you to complete your professional development requirements, certification, or licensure with built-in continuing education units. Refer to the Education Session Grid or at www.atia.org/2015Sessions for information on the types of CEUs offered for each session.

Complimentary CEUs are offered at no fee for ALL sessions and may be submitted towards CPDUs. These CEUs are provided through the AAC Institute, an I.A.C.E.T. provider. After the conference apply for CEUs at: www.atia.org/ATIA2015CEUs. Select the ATIA 2015 Conference from the list of events. Download, complete and submit the Session Attendance Report Form and the Evaluation and Learning Assessment Form. Visit the AAC Institute Booth #100 for more information.

Specialist CEUs are available (for more information, ask at the Accessible Materials & Services desk by Registration):

- Academy for Certification of Vision Rehabilitation & Education Professionals (ACVREP) complimentary CEUs are provided for all sessions in the Sensory Impairment strand and other selected sessions in the educational program. ACVREP CEU application forms are available onsite at Registration. ACVREP CEUs are approved and authorized by ATIA Member, The American Foundation for the Blind.
- American Occupational Therapy Association (AOTA) CEUs are now available for selected sessions from ATIA, an AOTA Approved Provider of continuing education. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA. CEU Participant Forms are available onsite at Registration and online at: www.atia.org/atia15aotaceus. AOTA CEUs are provided to full registered attendees for a separate \$15 fee.
- American Speech-Language-Hearing Association (ASHA) CEUs in speech-language pathology and audiology are awarded by the USSAAC CE Registry upon receipt of the CEU Participant Form from the ASHA Approved CE Provider, USSAAC. CEU Participant Forms are available onsite at Registration. ASHA CEUs are provided to full conference registered attendees on a complimentary basis.

*CEUs earned are subject to individual CEU provider's guidelines. One CEU is the equivalent of ten (10) hours of instruction. The minimum measure generally recognized is 0.1 CEU (one hour of instruction) and amounts are rounded to the nearest tenth.

2015 Session Strands Overview

Sessions at ATIA 2015 are planned around 12 strands, enabling you to get the most out of your professional development. Educational sessions at the ATIA conference are selected by a blind peer review under the leadership of **Joy Zabala**, Education Program Chair, Ed. D., ATP, Strand Advisors, and the ATIA Education Team. Strand Advisors represent practitioners, content expert organizations, or individuals who are acknowledged experts in their field.

ACCESSIBILITY (ACC)

Strand Advisor:

Sharon Spencer, International Association of Accessibility Professionals (IAAP)

Strand Description:

Sessions focus on the design and development of accessible technology as it relates to hardware, software, websites, mobile applications, proprietary applications, content and documents. Topics in this strand may be of interest to developers, designers, testers and others involved in the development lifecycle or others who support the implementation of accessible technology.

ASSISTIVE TECHNOLOGY FOR IMPROVED FUNCTION (ATIF)

Strand Advisors:

Sandy Hanebrink, OTR/L, Touch the Future. Inc.; Robin Jones, Great Lakes ADA Center; Judith Schoonover, Loudoun County Public Schools, Ashburn, VA

Strand Description:

Sessions focus on the use of assistive technology for improved function and access in individuals with physical disabilities or disorders, other functional impairments, and impairments related to aging in environments and communities such as school, home, work, recreation and general public access. Sessions in this strand may be of special interest to occupational therapists, physical therapists, special educators, engineers, assistive technology professionals and independent living specialists, but will also be of interest to others who support individuals with functional limitations that may impact access, participation, productivity and achievement. Technologies may include:

alternate keyboard/mouse, eye gaze, head pointers, scanning, switches, innovative text entry technologies, Environmental Control Units (ECUs), mobile devices, mounting devices, functional seating and mobility technologies, home modification technologies, activities of daily living technologies, adaptive recreation, and disabled sports technologies and technologies for improved public access.

AUGMENTATIVE AND ALTERNATIVE COMMUNICATION (AAC)

Strand Advisors:

Amy Goldman, Temple University, representing ASHA Division 12, AAC; Dr. Carole Zangari, Ph.D., Nova Southeastern University

Strand Description:

Sessions focus on low- to high-tech support of communication for individuals, infancy through adulthood, with complex communication needs. Topics include, but are not limited to: assessment, communication devices and strategies for successfully obtaining speech generating devices, intervention strategies for communicative competence, iPads and other mobile devices, and language and syntax and literacy.

CORE STANDARDS (CS)

Strand Advisor:

Karen Erickson, Ph.D., University of North Carolina, Chapel Hill

Strand Description:

The Common Core State Standards have become the norm across the United States. This consistent, clearly articulated set of standards represent a newfound, national focus on ensuring that all students exit high school with the skills they need to be successful in college, career, and beyond. Sessions in this strand focus on the specific ways new and existing assistive technologies and approaches address the assessment and instructional demands Common Core from kindergarten through 12th grade.

2015 Session Strands Overview

EDUCATION / LEARNING (EDU)

Strand Advisors:

Kelly Fonner, Fonner Consulting; Scott Marfilus, Marfilus Consulting

Strand Description:

Sessions in this strand focus on the use of assistive technology with students in Early Childhood, K-12, and University educational programs and virtual classroom settings. Presentations were submitted from teachers, related service providers, parents or support staff working with students who have learning disabilities, cognitive disabilities and/or multiple disabilities. Submissions were encouraged on implementation of multiple products/systems presentations rather than single product related presentations and joint presentations with active practitioners and/or students. Submissions were encouraged on implementation of multiple products/systems presentations rather than single product related presentations.

EVERYDAY TECHNOLOGY (ET)

Strand Advisors:

Kirk Behnke, Region 4 Education Service Center, Texas; Brian Wojcik, University of Nebraska at Kearney

Strand Description:

Sessions focus on applications of technologies that are commonly used by the general public but have features and functions that lend themselves for use by persons with disabilities or those working with persons with disabilities. Session topics include: Web Applications (including Web 2.0), Applications of Commonly Used Software, Readily Available Technologies, Portable and Smart Technologies, Ubiquitous Technologies, apps and more.

INTERNATIONAL (INT)

Strand Advisors:

David Banes, Mada Center, Qatar Assistive Technology and Accessibility Center; Axel Leblois, G3ict, Global Initiative for Inclusive ICTs; Francesca Cesa Bianchi, G3ict, Global Initiative for Inclusive ICTs

Strand Description:

The International Strand is designed for those in international roles or in leadership positions with international organizations or agencies to be learn, network and share information on AT programs and services from around the world. Those engaged in the international field face challenges in obtaining current information on best practices for implementing support infrastructure/s to provide assistive technology to their different constituent groups. This new strand, led by groups engaged in these important initiatives at both a global level and individual country/regional levels, will provide insights and real world examples of what works and what doesn't work in the arena of AT provision and service delivery. The difficulties of providing national language support for assistive technology and training materials will be included as component of the many challenges involved in this field.

LEADERSHIP (LDR)

Strand Advisors:

Diana Carl, Independent Consultant; Denise DeCoste, Accessible Technology Consulting

Strand Description:

Those in leadership positions, whether at a team, district, regional, state, or national level, face many challenges in moving policy and change forward to impact achievement of educational, vocational and life goals. Current realities include meeting federal, state, and local mandates with shrinking funds. Yet, today's networking tools offer new avenues for service delivery such as providing learning opportunities and developing professional learning communities.

MICROSOFT TECHNOLOGY IN EDUCATION (MSTF)

Strand Advisor:

Daniel Hubbell, Senior Program Manager-Accessibility Ecosystem, Microsoft Corporation

Strand Description:

Sessions focus on great teaching and learning activities for students with disabilities, innovative and unique ways

2015 Session Strands Overview

to use Microsoft technologies in the curriculum, and ways to utilize Microsoft technology for the integration of students with disabilities into mainstream classrooms.

Microsoft technologies include but are not limited to:

- Office 365
- Skype
- Windows tablets
- Windows 8
- Special Ed apps running on Windows
- Kinect

RESEARCH (RSCH)

Strand Advisors:

Steve Bauer, Project Officer, National Institute on Disability and Rehabilitation Research (NIDRR); Ben Satterfield, Chair, ATIA Research Committee; Roger O. Smith, Ph.D, O.T. FATA, RESNA Follow, representing RESNA

Strand Description:

Session topics include research related to:

- Research and development of specific assistive technologies,
- Studies of consumer performance, attitudes, use and abandonment related to assistive technology; and
- Examination of assistive technology assessment, intervention, service delivery instruction.

SENSORY IMPAIRMENT (SI)

Strand Advisors:

Ike Presley, American Foundation for the Blind

Strand Description:

Sessions include Blind/Low Vision, Deaf/Hard of Hearing and Deaf/Blind presentations related to issues that impact the use of assistive technology in personal, educational and workplace solutions. Session topics include: Assistive Listening Devices (ALDs), audio and sound technologies of interest to hard-of-hearing persons, Braille technologies, communication devices of interest to deaf persons, digital talking books, e-book readers and DAISY, mobile devices and applications, remote communication services for deaf and hard-of-hearing persons, screen reading software, speech-to-text services and video magnifiers (CCTVs) and screen magnification.

WORKPLACE AND VOCATIONAL REHABILITATION (WVR)

Strand Advisors:

Teresa Goddard, representing Job Accommodation Network; Mike Marotta, Assistive Technology Services, Advancing Opportunities

Strand Description:

Sessions in this strand focus on providing solutions to enable people with disabilities to obtain or retain employment. Topics will include utilizing technology tools to assist with matching the person's skills to job tasks and developing job related action plans for success.

Join the fastest-growing online ed tech resource community!

Over 57,000 education technology professionals like you use SmartBrief on Ed Tech every day to stay up-to-date on the latest headlines, trends, tips and how-to's for school and district leaders.

- *Top stories delivered direct to your inbox every day*
- *Groundbreaking original content from educators and editors*
- *Stay informed and knowledgeable on hot topics such as STEM, Big Data, and the Maker Movement*

Booth 512

WordPower48 Español

WordPower48 Español is a new AAC vocabulary created for the NOVA chat device and the TouchChat app. Designed to be intuitive and easy to use, WordPower Español meets the communication needs of a wide group of individuals in Spanish speaking cultures. The vocabulary includes easy to access basic communication for beginning communicators, as well as sophisticated language and grammar for individuals with advanced cognitive and linguistic abilities.

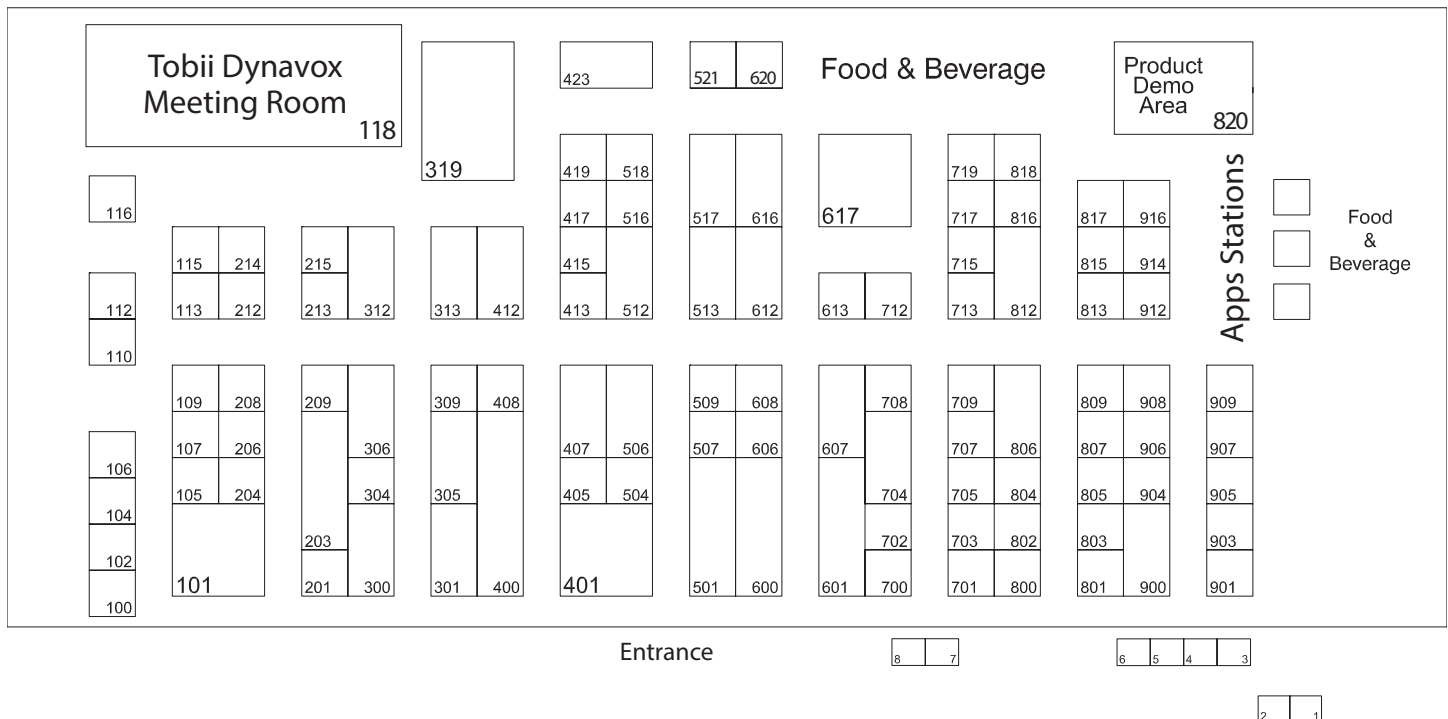

Texthelp

Booth 601

Read&Write - Tablet Solutions

Visit Texthelp's booth #601 for a first glimpse of two new tablet-focused versions of Read&Write - the award-winning literacy software, used daily by millions of students worldwide.

Read&Write for iPad and Read&Write for Android are new, touch-friendly versions of Read&Write. They are great for classrooms implementing BYOD (Bring Your Own Device) initiatives and ideal for students using portable devices to study at school, home or anywhere in between.
